

Revolutionizing Infectious Disease Practice with

# **CULTURE-FREE Microbiology™**

## **Using fluorescence spectroscopy**

the P-1000™ makes CULTURE-FREE Microbiology™ a reality and establishes a new worldwide standard in infectious disease practice.

## **Multi-Source**

**Bacterial detection, Enumeration, Identification**

P-1000™

Designed for quality-Built for performance

Revolutionizing Infectious Disease Practice with

# **CULTURE-FREE Microbiology™**

## **Timely, Actionable Evidence-Based Medicine**

Direct specimen resulting  
Antibiotic stewardship  
HAI containment

## **Improved Profitability**

Positive revenue cycle impact  
Attractive ROI

## **Operational Efficiencies**

Lean, fast and simple

## **Trust**

Gold Standard sensitivity and specificity
